Case Narrative

Residual Solvent - Isopropylbenzene was above normally accepted recovery criteria in the Matrix Spike and Matrix Spike Duplicate due to pinene coelution. Analyte was below the reporting limit in all client samples.

Terpenes - QC Blank contained phytol. Phytol exceeded normally accepted RPD criteria in the Sample Duplicate due to relatively large variations in very small values.

Pesticides - Acequinocyl and hexythiazox recovered above the upper acceptance limit in the Blank Spike. Fenpyroximate recovered above the upper acceptance limit in the Matrix Spike and/or Matrix Spike Duplicate. Analytes were below the reporting limit in all client samples.

Bifenthrin and chlorfenapyr recovered below the lower acceptance limit in the Matrix Spike and Matrix Spike Duplicate. The Blank Spike recovered within acceptance limits for these analytes. Additionally, no peaks were identified in the retention time window of these analytes.
